

PROTECH
BUILDING PRODUCTS

Protech was established in the mid 1990's. We specialize in the worldwide procurement of quality Engineered Flooring, Bamboo Flooring, Laminated Flooring and Decking.

The products are sourced from around the world. Protech's main roles include product procurement, importation, warehousing and supply to the flooring trade.

We are reliable suppliers of quality products on a consistent basis, supporting our clients by carrying optimum levels of stock and installation accessories.

All materials supplied by us are offered with full technical support and accreditation by international and local authorities. We work closely with specialist installers and applicators to ensure that our products perform to optimum manufacturers' specifications.
